## The Brenham Banner,

A Daily and Weekly Democratic Journal. PUBLISHED AT BRENHAM, WASHINGTON COUNTY, TEXAS.

RANKIN & McCRIMMON, Editors.

Supscription-Daily \$9 per year; Weekly \$2 per year.

THE BANNER has recently been enlarged to a thirty-two column paper: being now the largest paper ever published in the county. It is the only English newspaper published in the county, and is the acknowled organ of the Democracy of Austin, Washington and Burleson counties. Its columns are always well filled with items of State and general news, as well as sound and interesting Editorials upon all the important topics of the day,

THE BANNER is, and always has been the steadfast friend of the poor and working class; as such, has labored for their interest and advancement, by tavoring and advocating the emmigration to our county of intelligent and industrious where MEN. It advocates the speedy development of the vast resources of our great and growing State, by encouraging the establishment of manufactories of all kinds; favoring Railroad communication with sections of our State not yet penetrated by existing lines.

THE BANNER is a zealous worker in behalf of Brenham and Washington county. Coming to Brenham in January 1853, when it was but a small village of 300 inhabitants, we have watched its onward march of improvement with great pride and satisfaction; until now instead of 300, her population is near 4000 souls, and still her progress is onward. During this time (20 years,) we have been in some way connected with her journalism, working and striving for the posperity of our town, and we expect to continue our labors unremittingly, merely asking a liberal and sustaining patronage at the hands of the public we have so long and faithfully served.

Politically, the BANNER has ever been found battling for the triumph of the true and living principles of the Democratic party: and, as a Democrat have yielded a cordial and hearty support to Gov. Coke and our present State Government. We discuss all public issues from a strictly democratic standpoint, independent of any clique or ring.

THE BANNER opposes and deprecates the extravagance and corruption of the party now controlling the affairs of the General Government, and favors an early restoration of the same into the are and guidance of competent and honest officials-the true repesentatives of the people. It also favors the most rigid economy in the administration of the affairs of Government, both State and Federal, that labor may be lightly burdened by taxation.
